

We are a nation with the most freedoms for its citizens than any other country on this planet. In fact our military people are dying on a daily basis to protect these freedoms. Unfortunately, these freedoms are slowly being chipped away by fractions of the government like the FCC, IRS, etc. I am willing pay for my XM radio service because it does offer so much diversity like commercial free music channels and 24 hour local market traffic/weather channels, not to mention that their coverage is nationwide. Let the NAB stations come up with their own ideas to increase their audience base. We have much more important issues in this country like the oil companies that are wringing more and more money out of every person in this country that drives a car. We were founded on the Constitution which is in place to insure our basic rights as citizens and one of the most important of which is the right of free speech. XM radio is NOT broken and does not need to be fixed or told what to offer to the public. Everybody in this country has the choice to listen to XM radio or not, please leave it that way. Tell the NAB to get off of their lazy butts and offer something comparable instead of crying foul!! This is the greatest nation in the world, let?s keep it that way. LEAVE MY XM RADIO ALONE!!!!
